

**AIR DECK™** Conveyor in  
“Z” Decline Configuration

“S” Gripper Lift

“Flip-Over” Transition

**AIR DECK™** Product Spinner

## ***DILLIN* CUSTOM SOLUTION**

Carton Accumulation

**CASE HISTORY # CA-2K**

**CUSTOMER PROBLEM:** Needed accumulation between cartoner and case packer in area with limited floor space. Needed to reorient product 180° in dual lanes for case packer.

**DILLIN SOLUTION:** Elevated product to 12' with “S” Style **GRIPPER LIFT** following checkweigher. Provided 1 : 2 **DIVERT** to form dual lanes which created horizontal accumulation through **AIR DECK™ CONVEYOR** in “Z” Decline Configuration. **DUAL LANE AIR DECK™ PRODUCT SPINNER** provided required product orientation for case packer.

**System Capacities:** • 100 - 150 PPM

**Features:**

- “Speed-Up” **DUAL LANE METERING BELT** ahead of spinner.
